Feedback on team dynamics:

1. How effectively did your group work?

By sitting together and having a structure and distribution of work succinctly.

2. Were the behaviors of any of your team members particularly valuable or detrimental to the team? Explain.

Yes, Having healthy discussions related to methodology played a key role as both of us had different sets of expertise in the same field leading to a learning atmosphere for both of us.

3. What did you learn about working in a group from this project that you will carry into your next group experience?

Always have two data scientists in a group as each one has different opinions and expertise that leads to a perfect chemistry for ML Projects.
